About us

WHO WE ARE?

TGSANE Technologies are an international creative digital design and development company. We thrive on seeing ideas grow by adapting to new trends and technologies. Since 2016, we have been working with individuals and global brands to embrace the evolving digital industry.

We are big on trust, reliability and mutual respect so we will take the time to understand you, your product and your business. We work closely with all our clients and are always looking to forge ongoing trusted relationships – some of our clients have been with us for over a decade. We do this by providing offshore outsourcing services which reduce costs, enhance organizational flexibility and improve business and IT performance.

In simple terms, we use technology to make your vision a reality, without costing the earth.

TGSane Technologies is an IT consulting and solution providing company for next generation technology business models around the world. With comprehensive intelligence system across diverse industries and domains, our team is dedicatedly working over the client's project to turn into the most successful and high-performance organizations.

TGSane Technologies are sharpen edges and innovation and continuous learning organization since 2016. We backed our clients with “Success is Guaranteed” using our efforts, hard work, customer- centric approach and organized team effort.

Our Mission, Vision and Values

Mission

To do ourselves today to be better tomorrow. Being the premier outsourcing partner of software solutions does mean being the best with relation to partners expectations, clients service, team talent, and continuous growth.

Vision

Our mission is to accelerate your business by a digital transformation letting you focus on your strategic goals and provide simplify digital devices for even the most novice users in a more efficient. We are ready to make collaboration easy for employees, partners, and customers.

Core Values

We are client-centric. Serving for businesses means accounting for their prosperity. Our main value is our clients and customers. We appreciate them for trusting on us since 2016.

- **Integrity:** We build trust through responsible actions and honest relationships.
- **Accountability:** Each of us is responsible for our words, our actions, and our results.
- **Passion:** We're hungry, we're passionate, and we love tough problems and new challenges.
- **Teamwork:** We achieve more when we collaborate and all work together.
- **Results:** Delivering our very best in all we do, holding ourselves accountable for results.

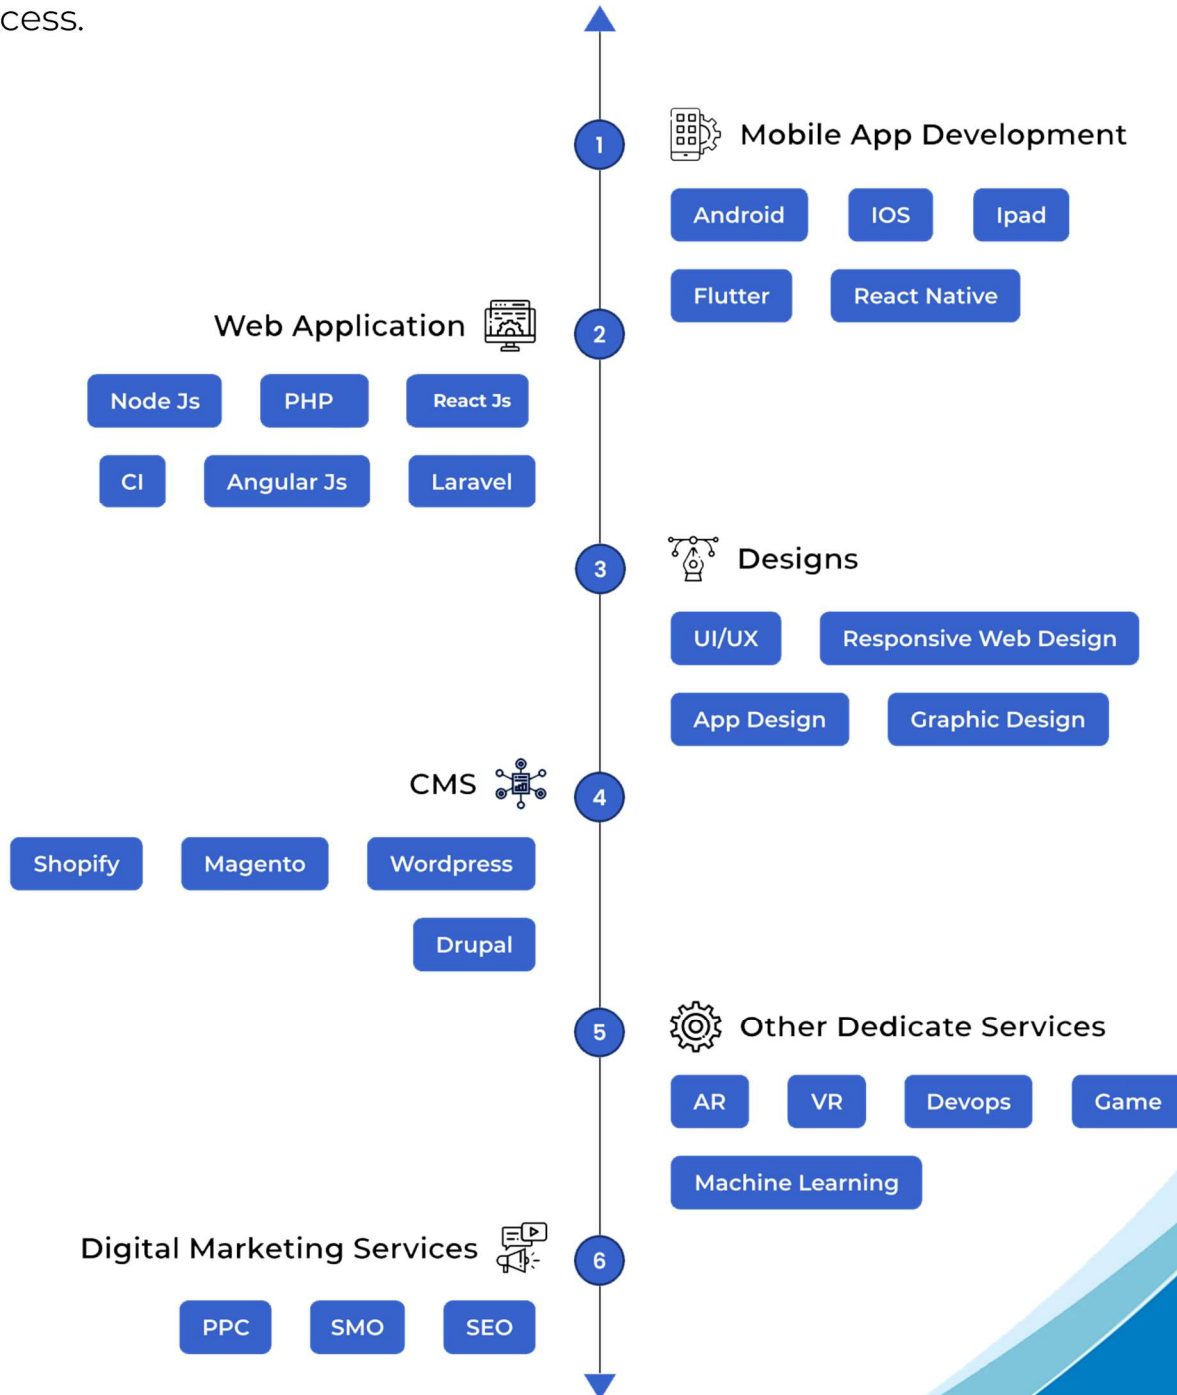

WE ARE COMMITTED TO

- Curiosity and innovation are pre-requisites.
- Listening is a great way to start a conversation.
- We value planning and discipline.
- We do things the ethical way because It is the only way.
- We treat our employees the way we want them to treat our customers.
- We always deliver on time.
- We reward and celebrate success.
- We are always looking ahead, reading ahead, thinking ahead.
- Everyone in the company is an ambassador of our dedication for excellence

What We Do?

The idea behind TGSANE was conceived in 2015, and the company was set up in February 2016. TGSANE is a company dedicated to supplying IT services to businesses to our valuable Clients. Every member of the TGSANE team is here to support your project and your business to continuously find ways to expand your website or your application.

To develop software requires time, skilled manpower, and expensive equipment. We have the state-of-the-art infrastructure that allows us to expand our teams and work in environments which will allow them to thrive. With determination and focus to succeed, we can deliver integrated solutions against your business objectives.

We build a team or solution that works for you - ensuring we are always aligned with your needs.

This model is scalable as well as flexible and you can add as many resources to your team as you need or reduce the efforts as required. We purposely keep everything transparent, so you are always clear about the arrangement.

“We’re confident that you would struggle to find offshore dedicated development team that has the same level of commitment and drive to make your project a success. From the initial planning and strategy stages, to the project launch, we are with you for the long run, and we will be working with you to grow your venture into the future.”

Design & Development Process

Model A

Dedicated Developers, Designers or Testers

A Dedicated developers, designers or testers at a competitive price, they will work fulltime on your project as needed (hourly, weekly & monthly basis)

Benefits

Lowest rate card available, highly technical developers, availability to select services as needed, direct communication(via email, skype or VC calls)

Best for

Short term projects, managed on the offshore or onshore or extra resources when needed

Model B

Include a Development Centre Based on Project

A team of dedicated developers, designers or testers with a experienced project manager or lead. The same services as Model A but it includes more as Project Manager or Lead who will track and monitor all your exact needs for developments. As they are based in the development centre, they have a high level of technical control and also perfect for managing projects with multiple developers to deliver it on timely and bug free.

Benefits

Lowest rate card available, highly technical developers with Technical project manager or team leads, direct communication(via email, skype or VC calls)

Best for

Long term projects, managed on the offshore or onshore development requirement.

Our solutions always Deliver the desired results

Through our expertise, technological knowledge, global presence and bespoke web solutions, we can help you transform your business, maximize performance and surpass the competition. We have a wide spectrum of expertise in web solutions within these technologies, giving us the necessary skills and knowledge to help you increase your presence on the web.
